

FRG FSDO FAASTeam presents:

AOPA's Rusty Pilots Program

Who is a Rusty Pilot?: Rusty Pilots come in all varieties. Some have lapsed their three month recency, others have lapsed three years. Occasionally we'll meet a young buck that's lapsed three decades. Regardless of your level of retrogression, Rusty Pilots will sharpen your aviation knowledge and introduce modern topics. Benefits of the Program: The Rusty Pilots program is designed to re-introduce pilots to the changing flight environment. Discussion includes use of newer technology, changes in the airspace system, new resources available to pilots, and much more. Most importantly, the Rusty Pilots program fulfills the ground instruction requirement of your Flight Review.

Topics Covered: Rusty Pilots was designed to address recent changes in the world of flying. Regulatory discussions include light sport aircraft, medical requirements, airspace, and common regulations. Weather includes TAFS, METARS, internet briefing, and FSS/ Flight Watch. Operation discussions include traffic patterns, communications, incursion avoidance, and pilot responsibilities. Click here to RSVP (via external site).

Directions: Come to the 5th Floor Reception @ 99 Madison Ave (between 29th and 30th street) to sign in.
